

PRODUCT DETAIL

Clay Water Pot Dancing Doll Design

Mitticool Clay Water Pot cools water naturally. Clay being alkaline in nature helps in neutralizing the pH level of the water and giving us the Natural Alkaline Water

Get Natural taste of water

Modern design

Chemical and lead free

Very easy to use & wash

Variety of health benefits

How to use

Do:

Before First Use, Clean the Pot/Bottle thoroughly with water from inside and outside using soft sponge and then fill it with water for 24 hours. After 24 hours, empty the pot and again wash it thoroughly. And dry it for sometime before use. This is to be done once only.

Clean the Pot/Bottle thoroughly in every 2 to 3 days a week or even cleaning daily is much better to avoid any kind of deposition on the pot and to keep its pores open for Cooling properly.

Keep a Plate or a stand to accumulate the seeping water from the pot to avoid spilling of water on the platform or floor.

Always clean with tepid water or with baking soda or Lemon.

If there is packaging smell in the pot, Use the Coffee powder treatment where fill a small bowl with coffee powder or Cardamom and keep inside the water pot to remove the smell.

Don'ts:

Don't use wire or metal scrubbers to clean the pot.

Don't use dishwasher or detergent.
